

# Lena Hartmann

Sudelfeldweg 6, 85435 Erding, Germany

Phone: +49 160 2411427 | Email: [lena@lena-hartmann.com](mailto:lena@lena-hartmann.com)

Junior Java Developer and ongoing Computer Science student. Very passionate about coding and learning the latest and greatest technologies. Please visit my [website](https://lena-hartmann00.com) for further information.

## # Skills

### Back-End

Java  
Kotlin  
Android  
REST (incl. JSON)  
PostgreSQL

### Front-End

HTML  
CSS  
JavaScript

### Technologies/Frameworks

Git(-flow) (GitHub, GitLab)  
Maven  
CucumberJVM  
Docker  
Gradle

### Tools

Linux (Ubuntu), Windows  
IDEs: mostly JetBrains  
Jira  
Confluence  
Slack

## # Experience

### Device Insight GmbH | Working student Java-Developer

April 2019 - March 2020 : Munich (Riem), Germany

- ↳ Member of Team X: responsible for up to 20 projects based on the older version of the company's in-house product (CenterSight-3x)
- ↳ Implementing a test framework for CenterSight from scratch – developed in partner work using Kotlin and CucumberJVM
- ↳ Maintaining current projects – giving support to customers and developing new features
  - using Java, Maven, Spring 3, REST, AngularJS (incl. JSP/HTML/CSS/JS), PostgreSQL (Hibernate, Liquibase)

### Personal Projects

#### Android Apps

- Developed different Android apps for practice during online courses as well as one private app
- Used skills: Java, Kotlin, Android, Gradle, AdobeXD (prototype design)

🐙 [lenahartmann00](https://github.com/lenahartmann00) 🌐 [lena-hartmann.com](https://lena-hartmann.com)

#### Excel Tool

- Currently developing an Excel tool for a wealth company that merges different tables in csv format into one excel table using macros
- Used skills: Excel VBA (Macros)

#### Morpheus Coding Challenges

🐙 [lenahartmann00/MorpheusCodingChallenges](https://github.com/lenahartmann00/MorpheusCodingChallenges)

- Building a project for Java developers to solve coding challenges given by a server (hosted by [Morpheus Tutorials](#)). This should make the developers focus on solving the challenges without having to worry about parsing JSON and/or sending Http Requests. Java Benchmarking is also included.
- Used skills: Java (incl. GSON, HTTP and JHM library), Maven

#### Server Hosting

- Hosting my own server (Ubuntu 18.04) that is running my website
- Used skills: general server configuration (e.g. setting up the firewall), Nginx, Docker

## # Education

10/20 - 04/24	B.Sc. Computer Science student	Technical-University-Munich
10/18 - 03/20	B.Sc. Bioinformatics student	Technical-University-Munich
09/10 - 06/18	General qualification for university entrance	Korbinian-Aigner-Gymnasium-Erding
