

Lena Hartmann

Sudelfeldweg 6, 85435 Erding, Germany

Phone: +49 160 2411427 | Email: lena@lena-hartmann.com

Junior Java Developer and ongoing Computer Science student. Very passionate about coding and learning the latest and greatest technologies. Please visit my [website](https://lena-hartmann00.com) for further information.

Skills

Back-End

Java
Kotlin
Android
REST (incl. JSON)
PostgreSQL

Front-End

HTML
CSS
JavaScript

Technologies/Frameworks

Git(flow) (GitHub, GitLab)
Maven
CucumberJVM
Docker
Gradle

Tools

Linux (Ubuntu), Windows
mostly JetBrains IDEs
Jira
Confluence
Slack

Experience

Device Insight GmbH | Working student Java-Developer

April 2019 - March 2020 : Munich (Riem), Germany

- ↳ Member of Team X: responsible for up to 20 projects based on the older version of the company's in-house product (CenterSight-3x)
- ↳ Implementing a test framework for CenterSight from scratch – developed in partner work using Kotlin and CucumberJVM
- ↳ Maintaining current projects – giving support to customers and developing new features
 - using Java, Maven, Spring 3, REST, AngularJS (incl. JSP/HTML/CSS/JS), PostgreSQL (Hibernate, Liquibase)

Personal Projects

Android Apps

- Developed different Android apps for practice during online courses as well as one private app
- Used skills: Java, Kotlin, Android, Gradle, AdobeXD (prototype design)

Excel Tool

- Currently developing an Excel Tool for the company "Betz Lutz & Kollegen Vermögensverwaltung GmbH" that merges different tables in csv format into one excel table using macros
- Used skills: Excel VBA (Macros)

Morpheus Coding Challenges

- Building a project for Java developers to solve coding challenges given by a server (hosted by [Morpheus Tutorials](https://morpheus-tutorials.com)). This should make the developers focus on solving the challenges without having to worry about parsing JSON and/or sending Http Requests. Java Benchmarking is also included.
- Used skills: Java (incl. GSON, HTTP and JHM library), Maven

Server Hosting

- Hosting my own server (Ubuntu 18.04) that is running my website.
- Used skills: general server configuration (e.g. setting up the firewall), Nginx, Docker

Education

10/20 - 04/24	B.Sc. Computer Science student	Technical-University-Munich
10/18 - 03/20	B.Sc. Bioinformatics student (discontinued)	Technical-University-Munich
09/10 - 06/18	General qualification for university entrance	Korbinian-Aigner-Gymnasium-Erding
